

Home Ec

Welcome to Home Ec! I am really looking forward to teaching this class. You will be learning to cook (this means free food) and sew. I would like you to have a few basic sewing tools when we start class. Please make sure you have these items when we start class.

Scissors
Dressmaker's tape measure
Colored head straight pins
Hand sewing needles
Needle threader
Sewing gauge ruler
5 spools of thread in various colors

These items are all available in most sewing stores. Joann Fabric has several kits that will work. If you choose to buy all your items individually please have a case or bag to put them in.

Be aware that for our final project you will be buying your own supplies. Details will follow, but you will be responsible for your own pattern and fabric for this project.

As I prepare for the cooking portion I find that I need some basic kitchen tools. If you have any extra pans, measuring cups, mixing bowls, etc. around your house that you have no need for, I would really appreciate any donations.
